Life & Abortion	<p>"We support the appointment of judges who respect traditional family values and the sanctity of innocent human life. We oppose the non-consensual withholding or withdrawal of care or treatment, including food and water, from individuals with disabilities, newborns, the elderly, or the infirm, just as we oppose euthanasia and assisted suicide. (pgs. 13-14)</p> <p>We oppose the use of public funds to perform or promote abortion or to fund organizations, like Planned Parenthood, so long as they provide or refer for elective abortions or sell fetal body parts rather than provide healthcare. ... We will not fund or subsidize healthcare that includes abortion coverage." (pg. 13)</p>	<p>"Will appoint judges who will ... protect a woman's right to safe and legal abortion (pg. 25); Democrats are committed to protecting and advancing reproductive health, rights, and justice. ... every woman should have access to quality reproductive health care services, including safe and legal abortion—regardless of where she lives, how much money she makes, or how she is insured. We ... will continue to stand up to Republican efforts to defund Planned Parenthood health centers ... and seek to overturn federal and state laws and policies that impede a woman's access to abortion, including by repealing the Hyde Amendment." (pg. 37)</p>	<p>"Individuals should be free to make choices for themselves and must accept responsibility for the consequences of the choices they make. Our support of an individual's right to make choices in life does not mean that we necessarily approve or disapprove of those choices. No individual, group, or government may initiate force against any other individual, group, or government." (pg. 2)</p> <p>"Government should be kept out of the matter, leaving the question to each person for their conscientious consideration." (pg. 3)</p>
Marriage	<p>"We condemn the Supreme Court's ruling in United States v. Windsor, which wrongly removed the ability of Congress to define marriage policy in federal law. We also condemn the Supreme Court's lawless ruling in Obergefell v. Hodges .... In Obergefell, unelected lawyers robbed 320 million Americans of their legitimate constitutional authority to define marriage as the union of one man and one woman." (p.11)</p>	<p>"Democrats applaud last year's decision by the Supreme Court that recognized LGBT people—like every other American—have the right to marry the person they love. But there is still much work to be done. ... Democrats will fight for the continued development of sex discrimination law to cover LGBT people. We will also fight for comprehensive federal non-discrimination protections for all LGBT Americans, to guarantee equal rights in areas such as housing, employment, public accommodations, credit, jury service, education, and federal funding." (p.19)</p>	<p>"Sexual orientation, preference, gender, or gender identity should have no impact on the government's treatment of individuals, such as in current marriage, child custody, adoption, immigration or military service laws. Government does not have the authority to define, license or restrict personal relationships. Consenting adults should be free to choose their own sexual practices and personal relationships." (pgs. 2-3)</p>

Religious Freedom	<p>"We value the right of America's religious leaders to preach, and Americans to speak freely, according to their faith. Republicans believe the federal government, specifically the IRS, is constitutionally prohibited from policing or censoring speech based on religious convictions or beliefs, and therefore we urge the repeal of the Johnson Amendment." (p.11)</p>	<p>"Democrats know that our nation, our communities, and our lives are made vastly stronger and richer by faith in many forms and the countless acts of justice, mercy, and tolerance it inspires. We believe in lifting up and valuing the good work of people of faith and religious organizations and finding ways to support that work where possible." (p.19)</p>	<p>"We support full freedom of expression and oppose government censorship, regulation or control of communications media and technology. We favor the freedom to engage in or abstain from any religious activities that do not violate the rights of others. We oppose government actions which either aid or attack any religion." (pg. 2)</p>
2nd Amendment	<p>"We uphold the right of individuals to keep and bear arms, a natural inalienable right that predates the Constitution and is secured by the Second Amendment. Lawful gun ownership enables Americans to exercise their God-given right of self-defense for the safety of their homes, their loved ones, and their communities. ... We support firearm reciprocity legislation to recognize the right of law-abiding Americans to carry firearms to protect themselves and their families in all 50 states. We support constitutional carry statutes and salute the states that have passed them. We oppose ill-conceived laws that would restrict magazine capacity or ban the sale of the most popular and common modern rifle. We also oppose any effort to deprive individuals of their right to keep and bear arms without due process of law." (pgs. 12-13)</p>	<p>"We can respect the rights of responsible gun owners while keeping our communities safe. To build on the success of the lifesaving Brady Handgun Violence Prevention Act, we will expand and strengthen background checks and close dangerous loopholes in our current laws; repeal the Protection of Lawful Commerce in Arms Act (PLCAA) to revoke the dangerous legal immunity protections gun makers and sellers now enjoy; and keep weapons of war—such as assault weapons and large capacity ammunition magazines (LCAM's)—off our streets. We will fight back against attempts to make it harder for the Bureau of Alcohol, Tobacco, Firearms, and Explosives to revoke federal licenses from law breaking gun dealers, and ensure guns do not fall into the hands of terrorists, intimate partner abusers, other violent criminals, and those with severe mental health issues." (pg.39)</p>	<p>"The only legitimate use of force is in defense of individual rights—life, liberty, and justly acquired property—against aggression. This right inheres in the individual, who may agree to be aided by any other individual or group. We affirm the individual right recognized by the Second Amendment to keep and bear arms, and oppose the prosecution of individuals for exercising their rights of self-defense. Private property owners should be free to establish their own conditions regarding the presence of personal defense weapons on their own property. We oppose all laws at any level of government restricting, registering, or monitoring the ownership, manufacture, or transfer of firearms or ammunition." (pg. 3)</p>

Support for Israel	<p>"Beyond our mutual strategic interests, Israel is likewise an exceptional country that shares our most essential values. It is the only country in the Middle East where freedom of speech and freedom of religion are found. Therefore, support for Israel is an expression of Americanism, and it is the responsibility of our government to advance policies that reflect Americans' strong desire for a relationship with no daylight between America and Israel. We recognize Jerusalem as the eternal and indivisible capital of the Jewish state and call for the American embassy to be moved there in fulfillment of U.S. law. We reaffirm America's commitment to Israel's security and will ensure that Israel maintains a qualitative military edge over any and all adversaries. We support Israel's right and obligation to defend itself against terror attacks upon its people and against alternative forms of warfare being waged upon it legally, economically, culturally, and otherwise. We reject the false notion that Israel is an occupier and specifically recognize that the Boycott, Divestment, and Sanctions Movement (BDS) is anti-Semitic in nature and seeks to destroy Israel. Therefore, we call for effective legislation to thwart actions that are intended to limit commercial relations with Israel, or persons or entities doing business in Israel or in Israeli-controlled territories, in a discriminatory manner." (pg. 47)</p>	<p>"A strong and secure Israel is vital to the United States because we share overarching strategic interests and the common values of democracy, equality, tolerance, and pluralism. That is why we will always support Israel's right to defend itself, including by retaining its qualitative military edge, and oppose any effort to delegitimize Israel, including at the United Nations or through the Boycott, Divestment, and Sanctions Movement. We will continue to work toward a two-state solution of the Israeli-Palestinian conflict negotiated directly by the parties that guarantees Israel's future as a secure and democratic Jewish state with recognized borders and provides the Palestinians with independence, sovereignty, and dignity. While Jerusalem is a matter for final status negotiations, it should remain the capital of Israel, an undivided city accessible to people of all faiths. Israelis deserve security, recognition, and a normal life free from terror and incitement. Palestinians should be free to govern themselves in their own viable state, in peace and dignity." (pgs. 49-50)</p>	<p>[Nothing specifically stated in the platform, but in section 3.3, "International Affairs"; they state] "We would end the current U.S. government policy of foreign intervention, including military and economic aid. We recognize the right of all people to resist tyranny and defend themselves and their rights." (pg. 6)</p>

Climate Change & Use of US Energy Resources	<p>"Information concerning a changing climate, especially projections into the long-range future, must be based on dispassionate analysis of hard data. We will enforce that standard throughout the executive branch, among civil servants and presidential appointees alike. The United Nations' Intergovernmental Panel on Climate Change is a political mechanism, not an unbiased scientific institution. Its unreliability is reflected in its intolerance toward scientists and others who dissent from its orthodoxy. ... We reject the agendas of both the Kyoto Protocol and the Paris Agreement, ..." (pg. 22)</p> <p>"Energy is both an economic and national security issue. We support the enactment of policies to increase domestic energy production, including production on public lands, to counter market manipulation by OPEC and other nationally-owned oil companies. This will reduce America's vulnerability to energy price volatility." (pg. 20)</p>	<p>"Climate change is an urgent threat and a defining challenge of our time.... We believe America must be running entirely on clean energy by mid-century." (p.27)</p> <p>"Global Climate Leadership: Climate change poses an urgent and severe threat to our national security, and Democrats believe it would be a grave mistake for the United States to wait for another nation to take the lead in combating the global climate emergency. ... In the first 100 days of the next administration, the President will convene a summit of the world's best engineers, climate scientists, policy experts, activists, and indigenous communities to chart a course to solve the climate crisis. ... we applaud President Obama's leadership in forging the historic Paris climate change agreement. We will not only meet the goals we set in Paris, we will seek to exceed them and push other countries to do the same." (pg. 45)</p>	<p>"Competitive free markets and property rights stimulate the technological innovations and behavioral changes required to protect our environment and ecosystems. Private landowners and conservation groups have a vested interest in maintaining natural resources. Governments ... have a terrible track record when it comes to environmental protection. Protecting the environment requires a clear definition and enforcement of individual rights and responsibilities regarding resources like land, water, air, and wildlife. Where damages can be proven and quantified in a court of law, restitution to the injured parties must be required."</p> <p>"While energy is needed to fuel a modern society, government should not be subsidizing any particular form of energy. We oppose all government control of energy pricing, allocation, and production." (pg. 4)</p>
